

# NEVER REPLACE A RUPTURE DISC AGAIN !

No More  
Blown Rupture  
Discs

No More  
Oil Spills  
on Compressor

Made in USA  
  
2 Year Warranty

Actual Size

**Replaces All Atmospheric Rupture Assemblies  
on Divider Block Lubrication Systems**

## **“POPR” POP OPEN PRESSURE RELIEF**

GUARANTEED TO WORK WITH ALL

**CCT, ARIEL, TRABON, LUBRIQUIP, SB, MANZEL, LINCOLN & DROPSA DIVIDER BLOCK SYSTEMS**

### FEATURES:

- **ENVIRONMENT:** Eliminates Oil Spills Caused by Blown Rupture Disc
- **SAFETY:** Protects Operator from Possible Injury by High Pressure Oil Squirting from Blown Rupture Disc
- **RELIABLE:** Opens at Specific Set Pressure to Protect Compressor from Damage
- **PROTECTION:** Remains in Open Position Until Reset by Operator With a Simple Push on the Top of the Assembly

### OPERATION:

When the divider block system over pressures, the **“POPR”** snaps open and diverts the oil to the lubricator reservoir, a closed container, lube pump oil supply line or back to the compressor frame. Unit **“ALWAYS”** remains in open position until reset by the compressor operator.

**ADDRESSES ALL PROBLEMS ASSOCIATED WITH ATMOSPHERIC RUPTURE ASSEMBLIES.**

Remove the Atmospheric  
Rupture Assembly  
& Install the **“POPR”**.... It's that Easy

**POPR**<sup>®</sup>  
Patent Pending  
Installed in Place  
of Rupture Assembly  
Diverts Oil to Lube Box  
When System Over Pressures  
**“NO MORE OIL SPILLS  
ON COMPRESSOR”**

**POPR**<sup>®</sup>  
Pop Open Pressure Relief
